

Environmental Policy

Cubic FM Ltd is a Midlands based leading contractor providing the following services nationwide:

- Fire Stopping
- Fire Door Installation, remediation & surveys

Cubic FM Ltd has developed an Environmental Management System (EMS) in accordance with the requirements of ISO 14001. This is currently being implemented throughout the company and external certification will be sought. The company is committed to continual improvement of the environmental management system to enhance environmental performance.

The Directors are committed to the company fulfilling its compliance obligations, protection of the environment throughout all its activities and have raised several environmental objectives. The key points of its strategy to achieve these are:

- Sustainable Resource use
- Pollution Prevention
- Waste Minimisation
- Carbon Reduction

This policy will be communicated to all employees and persons under the control of the company. It will be available to interested parties upon request.
